

INTERNATIONAL E-CONFERENCE
ON
RECENT TRENDS IN PHYTO-CHEMISTRY

ICPC - 2023
15 November 2023

Organized by

DEPARTMENT OF SCIENCES, MATHEMATICS AND EDUCATION

ST. JOSEPH UNIVERSITY IN TANZANIA

Dar es Salaam P.O. Box – 11007

ABOUT THE CONFERENCE

The conference's main objective is to disseminate research discoveries in the fields of chemistry and plant science. Diseases have been a problem for humankind in many spheres of existence. Scientists working in the fields of botany, chemistry, physics, microbiology, biotechnology, bioinformatics, etc. are tackling all of these problems.

The purpose of the conference is to discuss new breakthroughs in the disciplines of chemistry, botany and science in general. The goal of this is to bring together professionals from a variety of fields so they can present their results to the group of scientists. The disagreement among experts over their research at this conference would produce useful results and ensure the inspiration of students and new scientists. More solutions to the current challenges would be made possible by this confluence of scientific dissemination, and new avenues for research would be made possible. This entourage is set up to educate and inspire the next generation of scientists to join the consortium. The following are some of the subjects that will be covered at this conference:

MAJOR THEMES OF ICPC

- Phytochemistry
- Biological and pharmacological activity
- Natural Chemistry
- Ethnomedicine
- Secondary metabolites
- Phytotherapy, Phytomedicine, Ayurvedha, Clinical studies
- Herbal drugs, essential oils
- Agro-physics
- Medical physics
- Nano-Technology

GUIDELINES FOR PAPER SUBMISSION

- Participants are invited to submit their abstracts in the themes mentioned for oral presentation.
- All portions of the full-length paper must be in normal, plain font (e.g., 12-point Times new roman and double spaced) and all pages numbered starting from the title page.
- The Title should be a brief phrase describing the contents of the paper.
- The Abstract should be a brief phrase describing the contents of the paper.
- The Abstract should be informative and completely self-explanatory, briefly present the topic, state the scope of the experiments, indicate significant data, and point out major findings and conclusion. The keywords should be between 3 to 6.
- The introduction provides a clear statement of the problem, the relevant literature on the subject. Materials and methods should be complete enough to allow experiments to be reproduced.

- Results should be presented with clarity and precision.
- The discussion should interpret the findings in view of the results obtained in this and in past studies on this topic.
- State the Conclusions in this and in a few sentences at the end of the Discussion.
- References follow the Vancouver style. i.e., numbered sequentially as they occur in the text and ordered numerically in the reference list. To include tables and figures, please refer “Journal of Medicinal Botany”.
- All the abstracts/Full length paper shall be sent to kalidhass.rajendran@sjuit.ac.tz

PUBLICATION
